

TECHNICAL DATA

TYPE	Unsterile, powder-free examination glove for single use
MATERIAL	Nitrile Butadiene Rubber (NBR), free of rubber accelerators
COLOUR	Mint Green
GLOVE SHAPE	Flat with rolled edge (ambidextrous)
INSIDE	polymer coated
SIZE/OVERALL LENGTH as per EN455-2	XS, S, M, L, XL 240 mm
WALL THICKNESS measured in double layer in the palm area	min. 0.12 mm typical 0.14 mm
BARRIER PERFORMANCE Tightness as per EN 455-1	AQL 1.5
FORCE AT BREAK as per EN 455-2	Specified ≥ 6 Newton
DURABILITY	3 years in original packaging if stored as per ISO 2230
STANDARDS AND LABELLING	EN 455-1 /-2 /-3 /-4, EN 420, EN ISO 374-1, EN 374-2, EN 16523-1, EN 374-4, ISO EN 374-5, ISO 15223-1
PURPOSE as set out in MD Directive 93/42 EEC as set out in PPE Directive 89/686 EEC	medical device class I single-use protective glove for complex risks, category III (protection against chemical substances for <u>limited time</u>) ¹⁾
PACKAGING	200 pcs./dispenser XS, S, M, L 180 pcs./dispenser XL

SEMPERCARE® GREEN REGLOVE YOURSELF

Green means Go

ALWAYS
THINKING
AHEAD

GOOD FOR YOUR HANDS – GOOD FOR THE PLANET

It is time for taking the next big step into a better future with Sempermed. Not only green in colour, the new Sempercare® green has been developed with tangible sustainability goals in mind. And what's more, the lack of any rubber accelerators means that it also offers you a skin-friendly hand protection.

“

YOUR BENEFITS

- ✓ Enjoy its skin-friendliness and pure formulation:
no chlorine, no natural rubber latex proteins, no rubber accelerators
- ✓ Manufactured while **saving on water, energy and CO₂ emissions**
- ✓ Advanced nitrile formulation facilitates **optimal 'touch and feel'** to the user, instilling confidence when handling medical instruments
- ✓ Synthetic inner coating for **fast and easy glove donning and glove change**
- ✓ Textured fingertips provide **extra grip for wet or dry applications**
- ✓ Comfortable and strong glove material ensures **stability and a pleasant wearing experience** even over longer periods of time
- ✓ **Bright mint-green colour** to uplift your mood

”

Green
means
Go

Everyone knows that a green light means "GO". This now also applies for the new glove innovation. **Sempercare® green** combines skin protection with model environment protection. This makes the glove a good example of an eco-friendly nitrile glove, conserving resources and protecting the hands of its users.

The new Sempercare® Green

Thanks to new sustainable and innovative production methods, you can now have a peaceful state of mind with the new **Sempercare® green**, knowing that you save on your eco-footprint while still wearing a glove that is skin-friendly and provides for a superior barrier protection against blood-borne pathogens and viruses. For this glove, we have redesigned the production process to save on gas, electricity and CO₂ emissions. In comparison to a conventional glove production process this is a lot:

LESS CO₂

Saving energy:
-17% CO₂ emission

LESS WATER

Saving water:
-12% water usage

Furthermore, this latex-free glove is produced without any rubber accelerators thus reducing the risk of delayed Type-IV hypersensitivity caused by residual rubber accelerators such as thiurams, carbamates and thiazoles, which are commonly known as triggers of skin irritations.

Changing the world for the better. Package by package.

To minimize environmental impact from packaging, **Sempercare® green** is packaged in 80% recycled and FSC certified paper. The optimized **200 pcs Big Pack** (for XS, S, M, L and 180 pcs for XL) allows for:

- ✓ Prolonged usage of a dispenser box – reduced replacement intervals at the workplace
- ✓ Simplified stock logistics – lower distribution costs through longer stocking intervals
- ✓ Reduced packaging materials – less package waste

It's time to reglove yourself and contribute to a cleaner tomorrow. Do you want to find out more about the Sempercare® Green? Visit www.reglove-yourself.com
